

To Whom It May Concern,

I currently possess the recreational vehicle listed below. The vehicle was previously registered or titled in your name and I cannot transfer the registration/title because I do not have a bill of sale or the previous title from you.

The Minnesota DNR cannot share your information with me, so I have asked them to pass on my information to you. I am hoping that you will contact me so that I can get a bill of sale or title document from you to transfer the registration into my name.

My contact information is listed below.

Thank you for your help.
